### SKILLS

AutoCAD	Cost Estimation	Python
Microsoft Office	Project Estimation	SQL
Microsoft Excel	Blueprint reading	Looker Studio
Macros	Google Sheets	Tableau
Microsoft Project	Google Drive	Seaborn

---

### EXPERIENCE

#### Cost Estimator and Scheduling Engineer

Nov 2024 – Currently working

##### CEYCORP – Colombia

- Develop budgets for building design projects, including schedules and technical specifications for construction processes.
- Implement improvements in databases to optimize the integration of budgeting components across various projects.
- Analyze designs and prepare unit price analyses to identify key activities and generate accurate estimates and competitive projections.
- Calculate quantities of work and administrative costs, ensuring precise estimates of materials, labor, and financial feasibility.
- Review consultant budgets and assess their alignment with project objectives, ensuring rigorous financial control.

#### Engineering Project Coordinator

Dec 2020 – May 2022

##### CEYCORP – Colombia

- Coordinate construction supervision projects, ensuring achievement of objectives, deadlines, and technical and budgetary feasibility.
- Oversee technical and administrative aspects of construction projects, ensuring quality, regulatory compliance, and timely execution.
- Lead on-site activities and monitor materials and safety conditions, ensuring adherence to standards and regulations.
- Coordinate financial progress, scheduling, and review of physical and budgetary progress for the execution of various projects.

**Engineering Project Coordinator****May 2021 – Sep 2021****MJG Construcciones Consortium**

- *Manage logistical, technical, and administrative aspects, ensuring compliance with client requirements.*
- *Coordinate and monitor project budgets and schedules.*
- *Plan and manage on-site activities, ensuring resource availability and adherence to deadlines.*
- *Provide technical support during execution, resolving issues and maintaining high quality standards.*
- *Oversee payroll, requisitions, and vendor payments, ensuring accuracy and timely transactions.*

**Engineering Project Coordinator****Sep 2019 – Nov 2020****CEYCONTROL Consortium – Colombia**

- *Manage logistical, technical, and administrative aspects, ensuring compliance with client requirements.*
- *Plan and oversee activities, budgets, and project schedules to verify technical compliance.*
- *Provide technical support during execution, resolving issues and maintaining high quality standards.*
- *Supervise payroll, requisitions, and supplier payments, ensuring accuracy and timely processing.*

**Project Engineer****Nov 2018 – Sep 2020****Contractor Juan Felipe Gómez – Colombia**

- *Support and supervise the execution of construction projects, including minor repairs and slope stabilization.*
- *Ensure material supply and perform daily budget adjustments according to the schedule.*
- *Manage on-site operations, efficiently coordinating daily activities.*
- *Oversee payroll and personnel, ensuring timely registrations, terminations, and updates.*
- *Measure work progress, participate in bidding processes, prepare payment certificates, and assist in supplier selection.*
- *Prepare budgets and project schedules for monitoring and control of various projects*

---

**EDUCATION****Bachelor's Degree in Civil Engineering****Budgets for Building Construction**

Graduate of the Building Construction Budgeting Course

**Data Analysis**

Graduate of the Data Analysis program
